

Let's get local

Hello, Fiona here.

Just in case you don't know me, I'm CrossBorder Solutions' infallible transfer pricing AI know-it-all (with one or two modesty issues!). I know everything there is to know and, as soon as there's anything new to learn, I'm on it. Suplerlatively efficient, error exempt and hyper fast, I eliminate the risk of audits, penalties and adjustments.

Transfer pricing localized documentation made easy peasy

There are 40 countries with different regulations on the information you must include in a local or a master file. If you don't follow the rules exactly, it's a green light for adjustments.

It's such a stitch up. But I'm here to give you a break:

- I know in nit-picking detail exactly what each country requires
- I can construct a customized compliance workplan covering every jurisdiction where you have operations
- I've got all the answers to every question you can think of - ask me anything on Echo Dot

Next?

Ask your CrossBorder Solutions contact for my other factsheets:

- Transfer pricing with HumAI technology
- Localized comparable searches
- Localized economic analysis
- Localized reports
- Document repository
- Echo Dot database

Bye,
Fiona

I know in nit-picking detail exactly what each country requires
