

Transfer Pricing University

Building Intelligence
Through Education

A CrossBorder Solutions Educational Program

The worldwide transfer pricing compliance environment is constantly evolving.

These changes can have a dramatic impact on how multinational corporations comply with regulations and even operate abroad.

To accomplish this successfully, it is critical that taxpayers stay abreast of this changing situation and become educated consumers. To help taxpayers achieve this level of understanding, CrossBorder Solutions has created Transfer Pricing University (TPU).

Transfer Pricing University is a unique learning environment that is 100% dedicated to educating tax professionals on the fundamental concepts of transfer pricing. The university's diverse offerings delve

into the heart of transfer pricing compliance and planning, empowering our students with the confidence and knowledge necessary to handle this important international tax issue.

Our programs have provided thousands of tax professionals with the foundation needed to better manage their companies' transfer pricing efforts.

TPU professors are our very own economists and transfer pricing experts. CrossBorder Solutions is an accredited sponsor with the National Association of State Boards of Accountancy (NASBA) and is certified to provide continuing education credits to attendees of its programs.

Free TPU Programs

TPU programs that are offered free of charge to clients of CrossBorder Solutions include:

Transfer Pricing 101

A four-part online lecture series that provides students with a basic understanding of transfer pricing compliance concepts. This offering is available on a monthly basis.

Transfer Pricing 201

A four-part online lecture series that provides students with an understanding of advanced transfer pricing concepts. This offering is available on a monthly basis.

Transfer Pricing 301

A four-part lecture series that provides clients with advice on how to profitably comply with transfer pricing regulations. This offering is available on a monthly basis.

Quarterly Roundtable Series

On a quarterly basis, clients are invited to a roundtable discussion series at the CrossBorder Solutions learning center in New York. In addition to exploring current transfer pricing developments, the primary goal of the series is to provide tax professionals with a forum to discuss ongoing compliance issues in-depth with their peers. These events will also feature guest speakers.

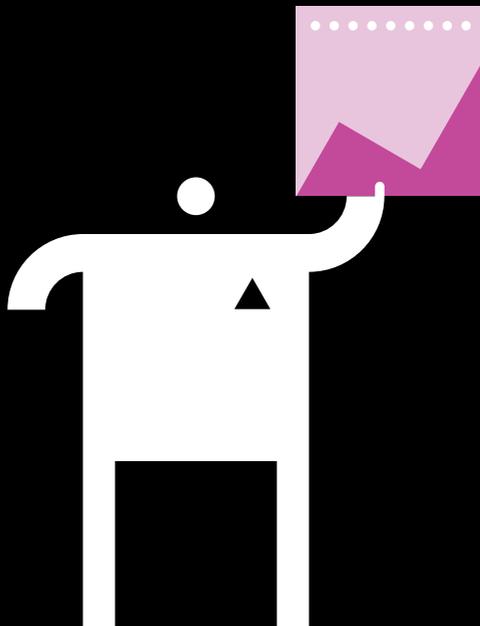

Transfer Pricing Lecture Series

This monthly online lecture series covers a wide range of topics with an emphasis on non-US transfer pricing developments.

Transfer Pricing Certification Program

Our Transfer Pricing Certification Program is the culmination of our educational programming. After clients participate in Transfer Pricing 101, 201, and 301, they may complete an interactive, online course of study which includes multiple quizzes and a final exam.

Additionally, students must complete a capstone transfer pricing study to showcase what they have learned. Upon successful completion of this effort, students receive a diploma indicating Certification in Transfer Pricing Compliance.

Our History of Excellence

The original CrossBorder Solutions was founded in 2001 and quickly became the industry leader in transfer pricing compliance. With over 1500 customers, the company radically changed how multinational corporations approached compliance worldwide.

After the company was sold to Thomson Reuters, it continued to innovate and develop cutting edge software that empowered companies to bring their compliance efforts in-house.

Building on this success, the new CrossBorder Solutions continues to revolutionize the transfer pricing landscape. Spearheaded by the original management team, the company has become the new industry standard in transfer pricing compliance and affordable adjustment protection.

With offices worldwide, and clients from a diverse range of sectors (including technology, software, financial services, automotive, chemicals, pharmaceuticals, consumer goods and retail), we provide a wide range of transfer pricing services to multinational corporations.
